INTEGRATED THERAPY ANNOUNCES OFFICE EXPANSION INTO ATHENS

ATLANTA, GA (November 5, 2014) – Integrated Therapy, LLC, the largest provider of aquatic physical therapy in the Southeast, announced today that it has expanded its presence in Georgia by opening its ninth office in Athens, at the Georgia Aquatic Center. For 15 years, Integrated Therapy has been at the forefront of practicing aquatic therapy techniques to combine the benefit of exercise with buoyancy and resistance to warm water to create a controlled, productive environment for rehabilitation.

Integrated Therapy specializes in the highest quality of aquatic physical therapy care for a wide range of post surgery and pain patients, in the treatment of injuries to muscles, bones, ligaments, joints, and nerves. With skilled clinical teams and a state of the industry aquatic physical therapy program, both swimmers and non-swimmers of all ages and abilities can benefit from the healing effects of aquatic physical therapy. Therapists not only restore patients to their maximum function, but also provide education about the injury and tools for prevention. Physicians agree that exercise in an aquatic environment offers many advantages traditional physical therapy simply cannot.

“Athens was a perfect and natural step for us to take in expanding outside of the Atlanta area. We couldn’t be more thrilled to provide our services to the patients there.” says Harriet P. Adams, BA, PTA, who founded Integrated Therapy after working at Shepherd Center and recognizing a need for aquatic services in Atlanta and its surrounding areas. Adams also owns Aquatic Consultants of Georgia, Inc., which specializes in certified American Red Cross swimming lessons for all ages.
